

men and supervisors of the road announcing they would have to resign if the seniority ranking of the strikers was returned. Immediately others leaped to their feet to testify to the similar condition among officials on their roads. Resignations would be wholesale from sub-former to general managers if their personal pledges to protect present employees could not be made good, they declared.

CHICAGO TRAFFIC IN HOPELESS JAM AS CARMEN STRIKE

Many Accidents Reported—Both Surface and "L" Line Workers Out.

Policemen were ordered on 24 hour duty with all leaves cancelled.

The strike followed extended conferences between heads of the company's and union chiefs over an attempt by the employers to force the workers to accept a reduction in pay from \$1 to 60 cents an hour.

The final decision to strike was reached at a tumultuous meeting of the workers last night. The vote to walk out was unanimous.

Efforts of the company to cut wages followed a reduction from \$1 to 7 cents for fares. Officials claimed it was losing \$25,000 a day paying the present wages with fares reduced.

Henry A. Blair, president of the Chicago Surface Lines, declared that no new proposals for settlement of rights accruing to them and of the permanence of their positions. To these old loyal employees have been added thousands of new men who were employed and could be secured only upon a definite promise that their services would be retained regardless of the settlement of the strike with all the rights appertaining to such employment, including that of seniority under the working rules and regulations previously approved by the railway labor board.

We especially point out that a refusal to the old employees who remained in the service and to the new men who accepted a service of the rights seniority inured to their employment would have just the opposite effect to that desired by the president and would seriously discredit the labor board.

In addition to the necessity of upholding the labor board, and maintaining the pledges made by the railroads to the men now at work, there is the practical effect on the supervisory officers of a violation of the pledges they were authorized to make. Their disengagement and demoralization would be far more disastrous than this or any other strike."

STRIKERS MAY ACCEPT.

CHICAGO, Aug. 1.—(By A. P.)—Full acceptance of Pres't Harding's railroad peace plan by the striking shopmen was declared by union leaders to have been practically assured tonight when the strikers' policy committee of 90 adjourned until tomorrow when definite actions is expected to be taken.

Following the meeting none of the union leaders would comment on the situation, left, as it was in midair with a very definite trend however, toward acceptance. The rejection of the seniority proposal by the railroad executives in New York and their qualified acceptance of the president's other two points were received without comment by the strikers.

Discussion of the points of the presidential peace program followed the reading of his memorandum to B. M. Jewel, president of the Federated Shop Crafts, who came direct from a conference with his executive council. Chairman Ben W. Hooper of the labor board, and A. O. Wharton, one of the board's labor members.

Some opposition to Pres't Harding's peace program was raised by members of the policy committee, their complaint being on account of absence of any provision on wages. Answering these complaints, union leaders said that a rehearing by the labor board which was to be gained under the peace program, would doubtless result in wage advances.

The discussion also brought out the belief of the union leaders that the creation of adjustment boards to settle disputes between roads and workers might be required of the roads by the labor board.

SIX PERSONS DIE, MANY ARE INJURED IN RAILWAY CRASH

cab of the excursion train and Horace R. Eite, brakeman on the same train was crushed to death.

Glossing of Steam.

As the trains met there was a hissing of steam and grinding of steel. Prayers, curses and groans came from imprisoned under the wreckage. The momentum of the coach caused them to drive against the tenders, telescoping the first coaches of both trains. The regular train carried five coaches and the excursion train three.

All available ambulances in Cincinnati together with fire apparatus and police ambulances and patrols were rushed to the scene and the injured rushed to hospitals.

The scene as the work of rescuing the dead and injured progressed was one of horror. Many were pinned beneath heavy timbers, badly maimed and shrieking for help. Others stunned into unconsciousness moaned pitifully for help as frenzied lifted the crushing weight from their imprisoned bodies.

Free State Troops Continue Victorious March—De Valera Plans Long 'War.'

DUBLIN, Aug. 1.—(By I. N. S.)—Free State troops in their drive southward on Cork have captured Tipperary and Killiee, it was announced today. Four regulars were killed in action at Tipperary, and three others wounded. The casualties of the irregulars are not known. Several irregulars were made prisoners.

Prisoners captured by the Free State troops said today that Eamonn De Valera, chief of the republican rebels hopes to continue the guerrilla warfare until December. They declared that De Valera believes that, if he can keep up hostilities until December, he will have prevented ratification of the Anglo-Irish peace treaty.

Terror Reign in Cork.
The irregulars before being driven from Tipperary blew up the water mains and burned the barracks. They also set the torch to the biggest industrial plant in the city.

At Killiee the irregulars burned the barracks and the customs station. Two rebel leaders, Commandant Lillis and Commandant Simon were captured.

Irregulars are said to control nearly all of Munster. They are levying taxes and commandeering food supplies.

Cork is described as undergoing a reign of terror. Newspapers have been suppressed and the rebels are seizing all sorts of supplies. The rebels are preparing strongholds in the mountains of Cork county in the event they are driven from the city.

There is a difference between happiness and wisdom. He that thinks himself the happiest man really is so, but he that thinks himself the wisest is generally the greatest fool.
